- Continuous Learning
- Attention to Detail

LANGUAGES

- Portuguese (Native)
- English (Fluent)
- Spanish (Beginner)
- French (Beginner)

PROFESSIONAL EXPERIENCE

Tech Analyst

Deloitte, Lisbon 2026 - Present
Working as a Tech Analyst at Deloitte, contributing to projects involving IT control assessments within the financial domain while supporting the development of AI-driven solutions. Continuously expanding my expertise in technology, risk, and artificial intelligence.

.NET Trainee Developer

Capgemini, Lisbon 2025 - 2026
As a .NET Trainee Developer at Capgemini, I contributed to the development and maintenance of .NET applications within an Agile, collaborative environment. My responsibilities included implementing new features, resolving bugs, and improving existing code to enhance application performance and maintainability. Throughout this experience, I collaborated with cross-functional teams using industry-standard development practices and tools, including Git for version control, while strengthening my knowledge of the .NET ecosystem, software development best practices, and clean code principles.

EDUCATION

Bachelor's degree in Computer Science and Business Management

Iscte-Iul, Lisbon 2022 - 2026
Interdisciplinary program combining Computer Science, Information Systems, and Business Management, providing a solid foundation in software development, data management, cloud computing, artificial intelligence, and digital transformation, while developing a strong understanding of business strategy and organizational management.
Academic Honours:

- ISTA Top Talent Merit Award(2025/2026)
- ISTA Top Talent Merit Award(2023/2024)
